Trudeau Follows Up WE Charity

One of several articles (this from Capforcanada.com) suggesting that the killings of Barry and Honey Sherman were related to an ethics investigation of Trudeau.

This may be going a bit too far down the rabbit hole, but let's address it anyway. While it is widely believed that the Shermans were killed because of an ethics investigation into illegal lobbying, there are other factors to consider.

First: the motive seems iffy, as there are no real consequences to being found guilty of violating these rules. Trudeau has proven that again and again.

Second: what if there were bigger financial issues at stake?

- Mar 2016 – Members of Trudeau's family take trip with Aga Khan
- Dec 2016 – Trudeau takes infamous Christmas trip with Aga Khan
- Nov 2017 – Raj Saini introduces M-132 in the House
- Dec 2017 – Barry & Honey Sherman are murdered
- Dec 2017 – Trudeau found guilty of ethics breach
- Mar 2018 – GAVI lobbies Canadian Government, continues
- Sep 2018 – Committee hearings on M-132 start up
- Mar 2019 – House of Commons formally adopts M-132 findings
- Jun 2020 – Saini/Gladue lobbied by GAVI
- Mar 2020 – Apotex begins lobbying Federal Government again
- Apr 2020 – WHO releases list of vaxx research underway

As a disclaimer: this is only a ***THEORY***. The site doesn't have any hard evidence that these killings are connected. There is just: odd factors, curious timing, and a potential financial motive. Take all of this with a grain of salt.

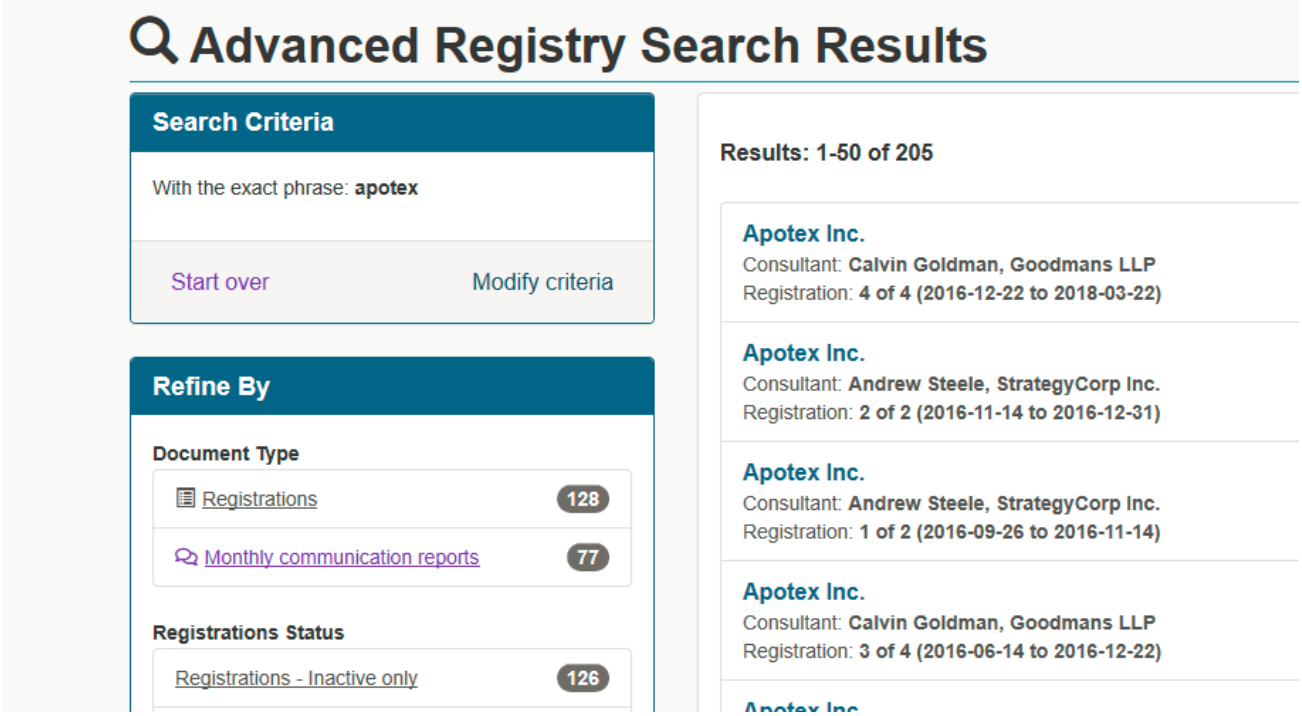
The Shermans have engaged in a small number of donations at the Federal level, according to Elections Canada. Nothing overtly suspicious from this alone. But let's look into the lobbying that has been going on.



77 communications reports have been filed with the lobbying registry. Interestingly, the bulk of them were ***PRIOR*** to the scandal that broke for the Shermans (allegedly) illegally lobbying then-Candidate Trudeau. However, on March 17 and 20, 2020, there were 3 more

meetings, on the topic of producing generic pharmaceuticals.

Apotex Inc.
Consultant: **Kenzie McKeegan, Loyalist Public Affairs**
Designated Public Office Holders:
- **Jagmeet Sra**, Policy Advisor, Minister's Office | Global Affairs Canada (GAC)

Communication Date: **2020-03-20**

Apotex Inc.
Consultant: **Kenzie McKeegan, Loyalist Public Affairs**
Designated Public Office Holders:
- **Celine Caira**, Policy Advisor, Office of the Minister | Innovation, Science and Economic Development Canada (ISED)
- **Amanda Woodley**, Parliamentary Secretary Assistant, Office of the Minister | Innovation, Science and Economic Development Canada (ISED)

Communication Date: **2020-03-17**

Apotex Inc.
Consultant: **Kenzie McKeegan, Loyalist Public Affairs**
Designated Public Office Holders:
- **Travis Gordon**, Senior Policy Advisor, Office of the Minister | Health Canada (HC)

Communication Date: **2020-03-17**

Subject Matter Details

Regulation

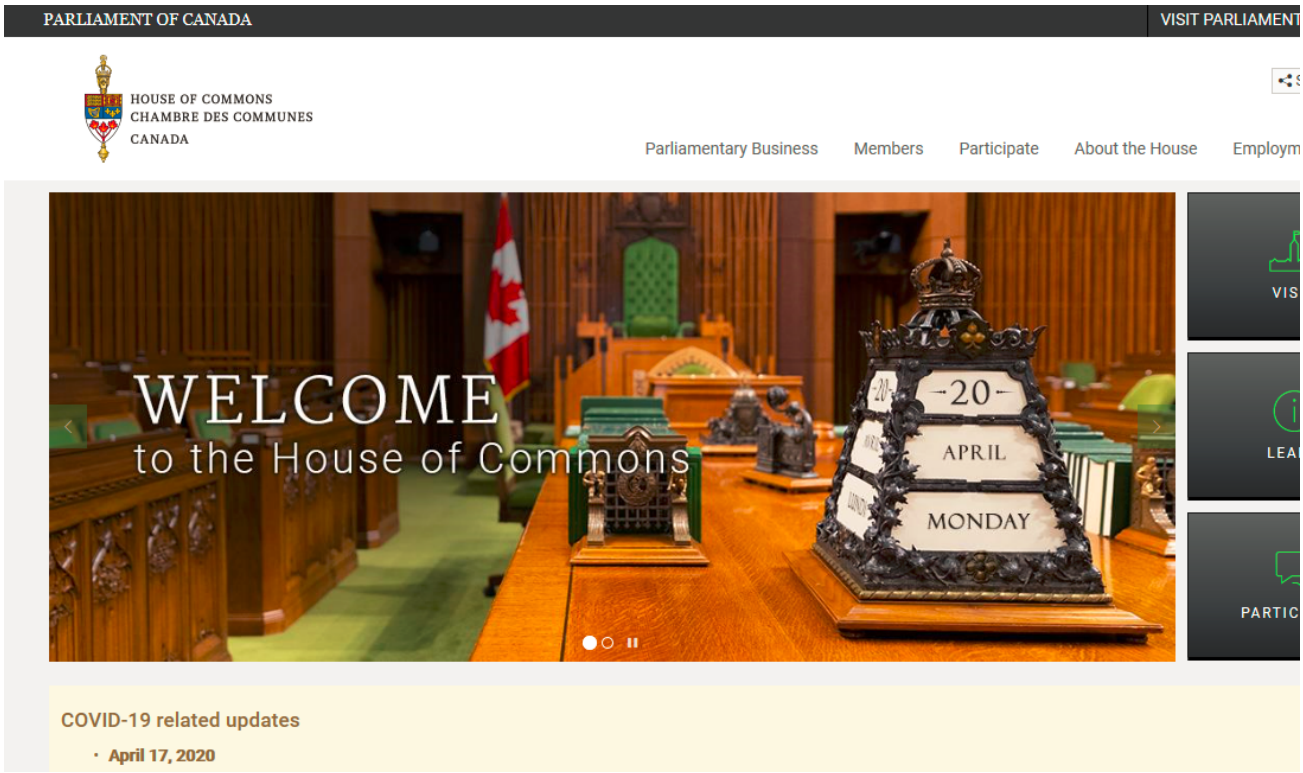
- Work with the government on a move forward basis on an open and inclusive regulatory regime for generic pharmaceuticals that continues to allow the industry to grow in Canada, and discuss with the government how Apotex can work with them to ensure the security of Canada's drug supply.

Government Institutions

- Global Affairs Canada (GAC)
- Health Canada (HC)
- Infrastructure Canada (INFC)
- Innovation, Science and Economic Development Canada (ISED)
- Intergovernmental Affairs Secretariat (IGA)
- Prime Minister's Office (PMO)
- Privy Council Office (PCO)
- Public Safety Canada (PS)
- Public Services and Procurement Canada (PSPC)
- Transport Canada (TC)

Certainly it would have been interesting to be a fly on the wall at that meeting. One can only imagine how it proceeded.

M-132 Introduced, Killings A Month Later



<

Minister of Health Ministre de la Santé

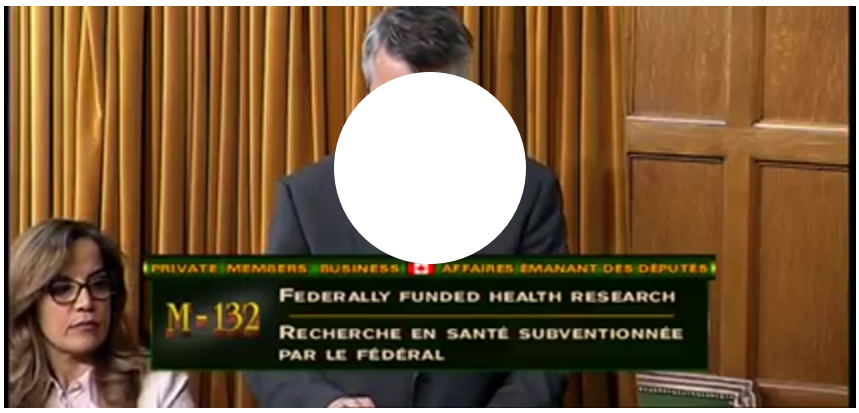
Ottawa, Canada K1A 0K9

Bill Casey, M.P.
Chair
Standing Committee on Health
The House of Commons
Ottawa, Ontario
K1A 0A4

Dear Mr. Casey:

Pursuant to Standing Order 109 of the House of Commons, on behalf of the Government of Canada, I am pleased to respond to the twentieth Report of the Standing Committee on Health entitled *Towards Open Science: Promoting Innovation in Pharmaceutical Research and Development and Access to Affordable Medications Both*

2019 Speech On M-132 Raj Saini And Pharma …



PRIVATE MEMBERS BUSINESS AFFAIRES ÉMANANT DES DÉPUTÉS
M-132
FEDERALLY FUNDED HEALTH RESEARCH
RECHERCHE EN SANTÉ SUBVENTIONNÉE PAR LE FÉDÉRAL

For a speech on passing M-132.

The text is below

Motion Text

That the Standing Committee on Health be instructed to undertake a study on ways of increasing benefits to the public resulting from federally funded health research, with the goals of lowering drugs costs and increasing access to medicines, ***both in Canada and globally***; and that the Committee report its findings and recommendations to the House no later than one year from the time this motion is adopted.

This could be the mother of all coincidences, but a month after M-132 was introduced, (see here, and see here, for background information), Barry Sherman of Apotex, and his wife Honey, were murdered.

Apotex was the major Canadian producer of hydroxychloroquine, which is touted as a cure for the coronavirus. With it being used, there would be little need for massive vaccine research.

This may be a coincidence as well, but after M-132 was formally adopted in March 2019, GAVI continued with their lobbying. They met with Raj Saini (who introduced M-132), and Marilyn Gladue (Vice-Chair of the M-132 Committee), in June 2019.

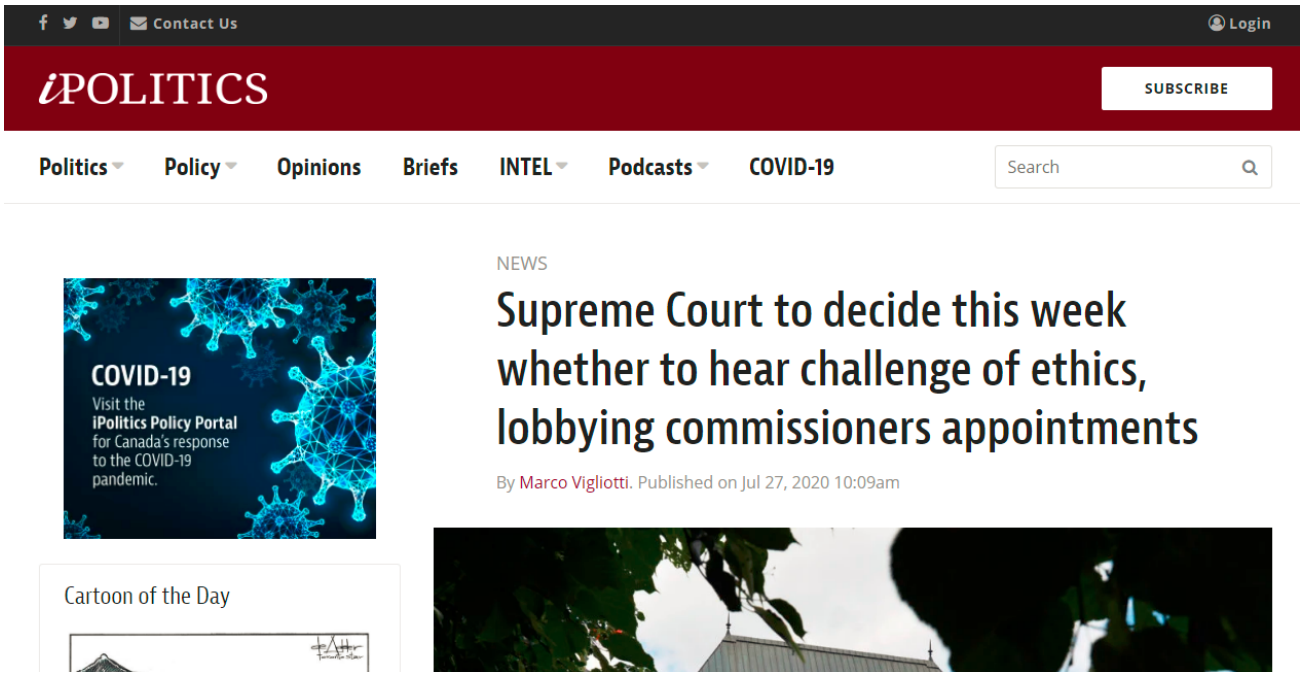
Also worth a reminder: GAVI's lobbying firm, Crestview Strategy, was co-founded by Rob Silver, husband of Katie Telford, who is Justin Trudeau's Chief of Staff.

Murder Staged As Murder/Suicide



Barry and Honey's lifeless bodies were discovered by realtors and clients who were touring the house on Friday, Dec. 15, 2017. The couple was last seen alive on the evening of Wednesday, Dec. 13. ***Initially thought by police to be a murder-suicide, their deaths were later determined to be a "targeted" double homicide***, according to Det. Sgt. Susan Gomes, who was then the lead detective on the case.

Their bodies were found in what Gomes told news conference was a "semi-seated position." Belts around their necks were attached to a low railing at one end of their basement swimming pool, holding them upright. Brian Greenspan, one of the lawyers working for the Sherman family, has said publicly that the Shermans were found seated side by side, and that one of Barry's legs was "crossed over the other." People who saw the bodies in the pool room that Friday have confirmed this to the Star. One of those people said the bodies were not seated in a 90-degree position but tipped back slightly, with the belts around their necks holding them from falling backward into the pool.

While the police originally thought this to be a murder-suicide, they quickly changed their findings to that of a double homicide. This was just staged in order to throw investigators off the trail.

It seems that many people correctly suspected that the Sherman killings were staged, but didn't figure out why. Of course, the coronavirus "pandemic" wouldn't hit until 2020.

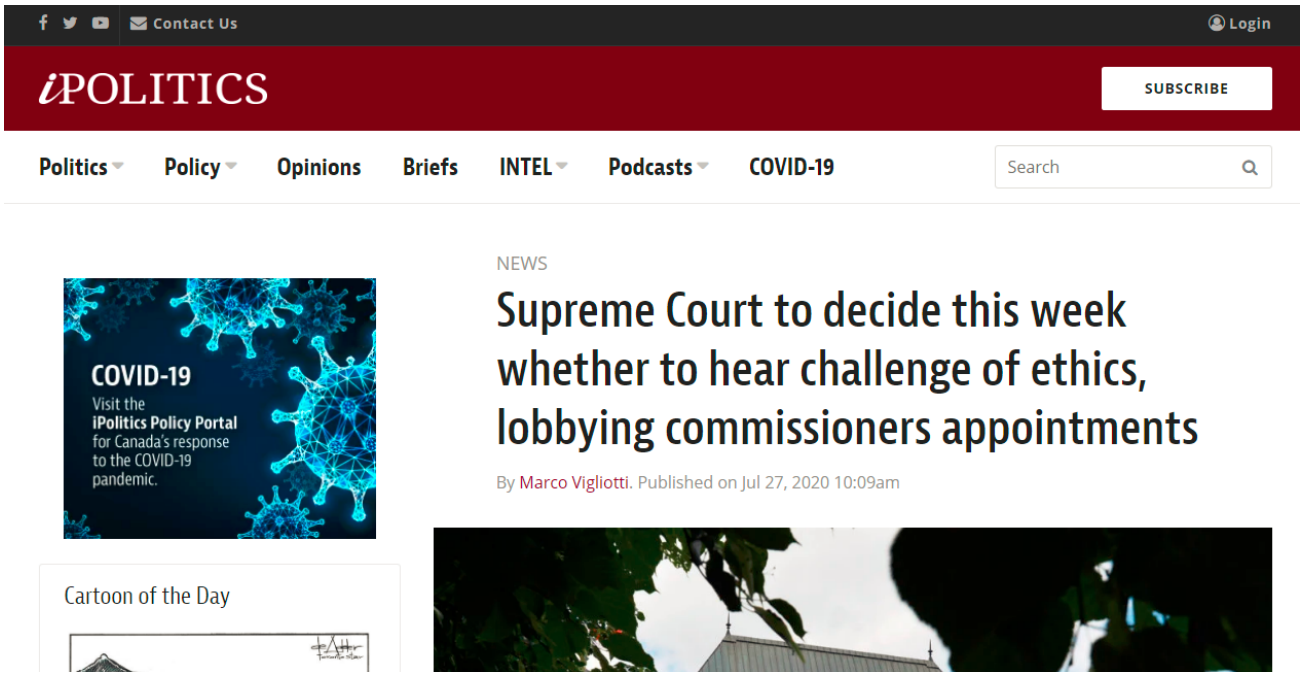
Democracy Watch In Federal Court



The Supreme Court of Canada ***will announce on Thursday whether it will hear an appeal*** from an ethics watchdog challenging the Trudeau government's appointment of new ethics and lobbying commissioners.

Democracy Watch's application for judicial review of cabinet's appointment of Mario Dion as ethics and conflict of interest commissioner and Nancy Belanger as lobbying commissioner was dismissed by the Federal Court of Appeal earlier this year.

In that ruling, the presiding judges said they weren't convinced by Democracy Watch's arguments that the actions of the governor-in-council, or cabinet, in making the appointments were "unreasonable."

The Supreme Court on Monday said it would it issue its judgment in Democracy Watch's application for leave to appeal on July 30. The court usually releases judgments on leave to appeal applications on Thursday.

The Group called Democracy Watch has been trying for years to get a proper investigation into Trudeau and the Shermans, going as far as Federal Court and the Supreme Court of

Canada. However, On July 30, the SCC declined to hear the case.

> Apotex Inc. is ***donating about 240,000 doses of a drug normally used to treat malaria*** for a study aimed at preventing COVID-19 infection in front-line medical staff, the company said Friday.

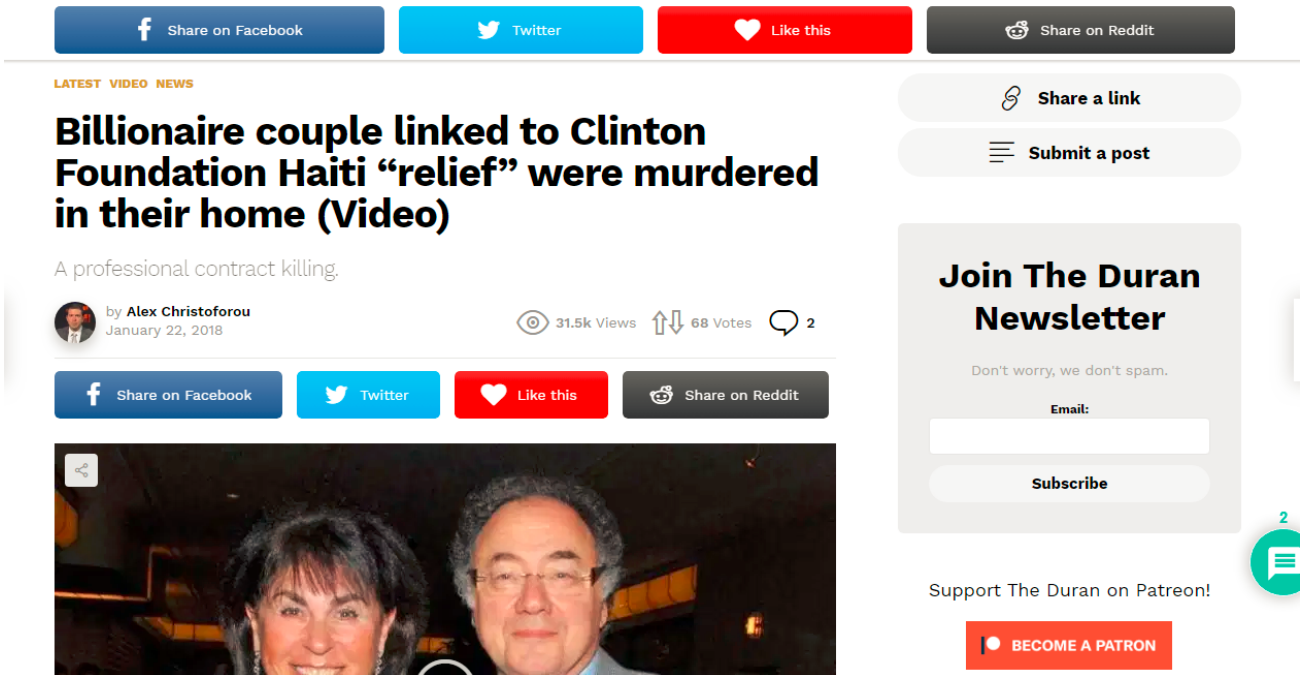
> The drug, ***commonly known as hydroxychloroquine, will be used in a clinical trial conducted by Toronto's University Health Network***. It will be given to front-line health care workers in a randomized, controlled trial that includes a placebo to determine whether it would be an effective treatment in preventing further spread of the novel coronavirus which had infected nearly 900 Canadians as of Friday afternoon, Apotex said in a statement.

Apotex was back in the news recently with announcements to donate large samples of hydroxychloroquine for research in determining its effects on CV-19. Keep in mind, this is a drug that has been out for a long time, so there is little money to be made from mass producing it.

Efforts To Stop Hydroxychloroquine

This is too long to go into here, but just search “BAN HYDROYXCHLOROQUINE”, and an almost endless amount of articles will come up regarding efforts to prevent this drug from being used.

Ties To Clinton Foundation



Of course, the “Clinton Body Count” is beyond a meme at this point. But it should be pointed out that Apotex donated to the Clinton Foundation missions in Haiti, Rwanda and Puerto Rico. And people connected to them have a nasty habit of committing suicide.

A list of previously registered foreign charities that were registered after December 31, 2012

Country	Name	Registration period
Poland	Auschwitz-Birkenau Foundation	2014-04-22 to 2016-04-22

United States	Woodrow Wilson International Center for Scholars	2003-10-23 2004-10-26 2005-10-26 2006-10-27 2007-10-12 2008-10-31 2010-11-02 2011-10-17

Worth noting: according to CRA records, the Clinton Foundation (along with the Aga Khan Foundation), have received gifts from the Canadian Government. It has happened under both the Harper and Trudeau Governments.

Why Were The Shermans Really Killed?

Considering how little information has been publicly released on the case, it's impossible to know for sure.

However, this is a very strange set of coincidences, if that's what it really is.

- Pandemic "simulations" are run for years: Dark Water (2001); Atlantic Storm (2005); Clade X (2018); and Event 201 (2019)
- M-132 is announced in November 2017, to fund global pharma research, and it comes just a month before the killings.
- The M-132 committee gets lobbied by the pharma industry, including GAVI itself.
- GAVI's lobbying firm, Crestview Strategy, was founded by Rob Silver, Katie Telford's husband.
- Shermans worked with Clinton Foundation
- Then this "pandemic" hits, with all the signs of premeditation.
- Now efforts are underway to stop the use of hydroxychloroquine, a drug Apotex can mass produce and share.

True, it has been widely speculated that this was done to stop an ethics investigation into Justin Trudeau. However, that seems unlikely, given these laws have no teeth.

This article may be viewed as a wild conspiracy theory. But it is an attempt to explain a set of seemingly nonsensical events.

3 Replies to “Are The Sherman Killings Tied To Canada Financing Global Pharma Research? (Theory)”

Angela Tucek, PhD

NOVEMBER 6, 2020 AT 12:12 PM

Your information is illuminating for me in old Germany. I was not aware of regulation you mention – implemented in the end of 2017. But in a Bavarian clinic, I obtained fraudulos diagnosis in connection with Ipsen, and in 2019 it’s CEO had to leave. Inferred from that, I mailed onto Shermantippline that the risk-insurance might have done it (ordered contract killers) but I don’t yet what the police thinks of that

Morton

MAY 9, 2021 AT 11:51 AM

Can someone check if it’s true Hillary Clinton in Toronto days before the murder. That might be curious. The killings were described by a judge as being done by a sophisticated criminal organization.. Clinton body count. Great lead. Why the ban on HCQ for covid in Canada especially Ontario? Great success worldwide. Banned in USA. How the police could call it a murder suicide seems so fabricated. Still unsolved.
